

### Support table for DANA api MATIC 1000

Ref: UTD004

This item is not in stock, so it must be paid in advance and the shipping time is about 2 weeks, except for stock shortages at the factory.

With the table support, you can easily and quickly adjust the height of your packaging machine if you want to fill glass jars of different heights.

The support is made of sturdy stainless steel and has a plastic guide against which you can hold the jar to ensure it is centered exactly under the filling nozzle.

The guide can also be adjusted forwards and backwards, depending on the diameter of the jar. It is possible to set the support at 23 different heights, in intervals of 0.5cm.

The support can be used for jars with a full height between 3.5cm and 25.5cm. Technical data: Length: 37.1 cm Width: 32.1 cm Height: 40.6 cm Thickness: 3 mm
